

Dear customer and partner,

In over 90 years of innovation, acquisitions and growth, a significant number of brands have joined us, strengthening our expertise in electrical safety.

By adopting a single brand name that brings together our shared and complementary expertise, we are underlining our resolutely customer-focused strategy by making it easier for you to find what you're looking for.

We are delighted to announce that  **PENTA** is our new brand. It now covers all our products and services.

**With PENTA, we want to assert our unique positioning as
"Expert Manufacturers".**

Now, under the  **PENTA** banner, we are pooling all our energies and all our products and services and choosing to serve you with 5 brands:

 <p>For the Personal Protective Equipment (PPE) and Personal Protective Clothing (PPC) required for personal safety, to protect oneself and the environment.</p>	 <p>For all the equipment required for lockout/tagout procedures (low, medium, and high voltage). To provide you with the necessary equipment for working on live systems in medium and high voltage environments.</p>	 <p>For all precision and safety-oriented tools, as well as the necessary equipment for the construction and maintenance of networks.</p>
---	--	--

 **PENTA** confirms our ambition to continue rolling out an enhanced range of innovative, sustainable products and solutions specifically designed to respond to every situation you may encounter, drawing on and capitalising on the experience of our international network.

This evolution does not call into question our fundamentals. Our product ranges continue to be developed, designed, and manufactured to meet current standards. As a result, we retain all our laboratory certifications relating to the qualification testing of equipment, so that we can deploy them on the market with a duty to serve the rules and regulatory expectations of everyone.

With  **PENTA**, our ambition is to better serve our markets and customers. We are constantly motivated by the idea of improving our service rates while reducing our carbon footprint.

TO SERVE YOU AND THE PLANET

WHAT'S EVOLVING

- Our former brands have come together to form our new  **PENTA** brand, accompanied by these 5 flagship brands:

- We're delighted to announce the launch of our new website: **pentaesp.com**, where you can discover our universe
- To make it easier for us to communicate with you, we've set up a new joint e-mail address to match our brand name: **firstname.lastname@pentaesp.com**.
- All our communication media have been redesigned and rebranded in the new  **PENTA** colours.

We would like to draw your attention to the gradual delivery of our products and packaging bearing these new brands. As a result, for a certain period of time, certain products and packaging may be delivered with our old historical brands.

WHAT REMAINS THE SAME

- The product references you are familiar with remain the same.
- The characteristics of these products remains unchanged.
- Your usual contacts are always available. All mail addressed to an old e-mail address will always be re-addressed to the new e-mail address (as indicated above).
- The corporate names of our various subsidiaries have not been changed (company name, postal address, switchboard number, SIREN, SIRET, etc.).

 **PENTA** affirms our determination to strengthen our quality of service, innovate in the design and manufacture of increasingly high-performance products in accordance with the standards and certifications in force in your country.

Our core business will always be, alongside you, to help protect the health and safety of ALL those who build and operate, and maintain the electricity networks.

**Your life,
Our work.**

With our sincerest thanks,
The Operational Marketing Department
